

**RAM PUMPS**  
Meeting The Toughest Challenges

## **ENVIRONMENTAL POLICY STATEMENT**

Ram Pumps Ltd are committed to the integration of economic growth and sustainable development with the ever-increasing need to care for the environment in which we all co-exist. Ram Pumps recognise the need to minimise the environmental impact in all aspects of our business.

Ram Pumps is committed to achieving environmental best practice wherever possible and to aiming towards the principles of ISO EN 14001

Our Environmental Policy includes the following:

### **Efficient use of natural resources including:**

- \* Purchase of Steel and Iron products
- \* Polymers, Ceramics and Composites
- \* Where practical and possible the re-cycling of all scrap paper and packaging material

### **Efficient use of energy including:**

- \* Minimising the use of power by switching off lights and unnecessary electrical equipment.
- \* Optimisation of heating controls/timers to avoid wastage.
- \* Insulation of offices to better than the statutory requirements.

### **Prevention of unnecessary pollution including:**

- \* Use of environmentally friendly lubricants.
- \* Safe storage of fuel oils to prevent ingress into local watercourses.
- \* Careful planning of deliveries to avoid unnecessary journeys.
- \* Use of CFC free fire extinguishers.
- \* Safe disposal of printer/copier cartridges

This policy has been defined by senior management of Ram Pumps Ltd with the endorsement of the Senior Vice President of Diversified Dynamics Corporation and has been communicated, understood and implemented through out the organisation as documented in the Quality Management System.

In addition to the above, Ram management will liaise with clients to develop our environmental policy in relation to projects and current best practice.
